John Jay College of Criminal Justice (CUNY)

B.S. in Computer Science & Cybersecurity

GPA: 3.6

New York, NY

Expected May 2029

RELEVANT EXPERIENCE

La Gran Familia Deli

Operations Lead

New York, NY

July 2025 – Present

- Oversee daily operations of a high-volume family-owned deli, helping manage workflow, customer service, and day-to-day problem solving.
- Manage inventory purchasing, supplier coordination, and stock organization to keep essential products available and reduce waste.
- Support equipment and store upkeep by troubleshooting operational issues and helping evaluate security and refrigeration upgrades.
- Improve efficiency by organizing processes for ordering, stocking, and routine business operations.
- Handle cashier responsibilities, assist customers directly, and help maintain a fast, reliable service environment.

TECHNICAL & PROJECT EXPERIENCE

Systems & Technology Projects

- Built structured workflow systems for inventory tracking, organization, and daily task management.
- Researched and implemented security camera and DVR system upgrades for business monitoring and loss prevention.
- Explored AI-based automation tools in isolated VM environments for testing, troubleshooting, and process optimization.
- Created organized documentation for system setup, troubleshooting steps, and repeatable operational processes.

Mechanical / Aviation Training

- Trained in aircraft engine systems, maintenance procedures, and safety compliance through FAA Powerplant certification work.
- Applied mechanical reasoning, technical diagnostics, and hands-on troubleshooting to real-world equipment and systems.

SKILLS

Technical: Mechanical systems, troubleshooting, inventory systems, equipment installation, workflow optimization, basic scripting concepts

Software: Microsoft Excel, PowerPoint, basic system configuration, AI tool experimentation

Languages: Fluent in English & Spanish
